

THE
HAEMOPHILIA
SOCIETY

We will not forget them

We are a close community. Historically, the years of campaigning for improved treatment and care and for justice for those affected by the contaminated blood disaster have brought us together. That closeness is continuing as people continue to support each other from everything from new diagnosis and inhibitors to the growing older with a bleeding disorder.

These pages are to remember those who we have lost.

If you would like to add anyone please contact the Society with the text and photos you would like us to display and we will add your page.

There are currently no pages in this channel. Please create further pages and links to them will appear here.
